The primary goal is to improve public safety by positively changing lives by providing consistent support, encouragement, recognition and accountability.

Residents who meet the screening criteria may be transferred to ORC 12 months before their earliest release date. The facility is operated in conjunction with a long-term non-profit partner, A Beginning Alliance, that provides 24/7 safety and security, food service and maintenance. The building is owned by the Department of Corrections.

Individuals with Disabilities: The Reentry Centers meet applicable American with Disabilities Act (ADA) standards and DOC policies regarding ADA. We will coordinate with the statewide ADA coordinator prior to the arrival of residents requiring ADA accommodations to ensure the facility has the necessary items. We will ensure the facility continues to meet the accommodated residents' needs during their incarceration.
