SUBJECT: Approved Religious Items – Union Supply

In 2017, Union Supply became the sole source vendor for religious property with the exception of beads. Since that time, Correctional Program Administrator Belinda D. Stewart and Correctional Industries Specialist Sue Newton have worked with Union Supply to outsource items as appropriate.

Through this process, we have found that some of the newly identified items do not meet the current measurements specified on the Allowable Individual Religious Items Matrix (attached) referenced in DOC 560.200, Religious Program.

Please note that these items ***are authorized and should be approved***. The appropriate dimensions and measurements will be updated with the next policy review.

If you have any questions or concerns, please contact Corrections Program Administrator Belinda D. Stewart.
