  - (b) Incarcerated individual is transported to the County Jail for the resentencing or modified order.

**3. DOC enters the amended order to change the confinement term, recalculate release dates, and adjust any other sentences being served.**

**4. DOC develops a transition and release plan, either:**

- (a) Per RCW 9.94A.729 (5) if the individual is past their ERD but has not served the maximum confinement term (no earned time applied) and does not have an approved release plan , or
  - (b) DOC 350.200 Transition and Release if the individual has not served to their earned release date.
- 

**5. Once release address is approved, DOC will set the projected release date (PRD). If past the ERD, but not reached maximum expiration, DOC will set PRD either 35 or 15 days after notification of release plan approval.**

**6. The individual transitions and is released.** DOC will release the same day of receipt of the order *only when DOC's release determinations are made by 3:00PM on a business day*. If the release determinations occur after 3:00PM, the individual will release the next business day.
