# AUDIT FINDINGS

## **NARRATIVE:**

A PREA Audit was conducted at the Madison Inn Work Release on July 28, 2014. The audit was conducted by La Cole Archuletta, a certified PREA Auditor and Jerri Worm who served as Support Staff.

Prior to the on-site audit, the pre-audit questionnaire and documents provided by Madison Inn Work Release (MI) were reviewed and phone interviews were conducted with many personnel both inside and outside the Washington Department of Corrections (WDOC).

MI was toured on July 28, 2014. Interviews were conducted on-site with 20 staff and contractors and 4 residents. Additional documents were reviewed and requested throughout the audit. Katrina Lindell is the Community Corrections Supervisor for MI.

WDOC staff and contractor of the Pioneer Human Services work together to supervise the residents at MI. There are a three WDOC employees and ten contractors from the Pioneer Human Services assigned to MI.

## **DESCRIPTION OF FACILITY CHARACTERISTICS:**

Madison Inn Work Release is located in Seattle, Washington (King County). MI is a residential house converted into a work release facility. Its capacity is 25 beds and at the time of the audit had 22 residents. It is an adult male facility that provides outpatient and intensive outpatient chemical dependency treatment services. Residents may also attend substance abuse programs such as Alcoholics Anonymous and Narcotics Anonymous meetings in the community.

Forensic medical exams are conducted off site at the Harborview Medical Center in Seattle, Washington.

<b>WDOC amended several contracts with agencies that they contract with to confine residents. The contracts include an obligation for that agency to adopt and comply with the PREA standards. WDOC has developed contract shell language regarding PREA standard compliance to be included in every applicable contract with any entity contracted with to house offenders. Additionally, all current contracts have been revised or have revisions pending to include this language. It is the understanding that these entities have made substantive progress towards and will continue to work toward complete compliance with PREA standards.</b>

**Auditor comments, including corrective actions needed if does not meet standard**

MI staff and contractors do not conduct cross gender strip searches or body cavity searches. During the tour and interviews with staff and residents, it was apparent that the policy to announce staff/contractors of opposite gender when entering the housing unit is practiced. Residents stated that they were able to shower, perform bodily functions without staff member/contractors of the opposite gender viewing them. MI staff and contractors said that they received training on pat searches. Training records indicated that security staff/contractors received the training. MI staff and contractors stated their policy and practice was that cross gender pat searches are not permitted. The only exception is if there is an emergency situation and then it would be documented. There is always a male staff member/contractor on duty.
