Communication Plan Review/Feedback

• People will make good decisions if they have good information
• Must engage those who can help & hurt the most
• Anticipate the very worst and plan for it
• Stakeholders are not equal
• Stakeholders need different information at different times in different ways from different people
• Include everyone whose phone could ring
• No one should say “I was surprised by this”
• We must modify based on changing conditions or information
• Messages must be compelling & used consistently

MESSAGE PLATFORM

**We are:** The Washington State Department of Corrections and Members of this Community.

**We promise:** To work together for a safe community.

**We believe that:** Work release has been proven to be the most effective approach to transitioning individuals from being inmates, to becoming productive members of society. Work release positively impacts the inmate, his or her family, and the surrounding community to which they return.

**We have come together because:** There is an unmet need, which, by working together we can meet.

**Our Personality:** Respectful, responsive, professional, approachable, smart, humble, agile

<tbody>
<tr>
<td>Work release provides greater safety and success than any other form of transition.</td>
<td>Only those individuals meeting a rigid set of criteria will be eligible to participate.</td>
<td>Only those who meet high standards and obey stringent rules can stay in.</td>
<td>The final location will only be approved after completing a painstaking evaluation process.</td>
<td>EVERYONE who wants to participate in this process is invited and encouraged to participate.</td>

**Reasons To Believe**
- Work release improves safety, benefits the individual and the community while improving the economy.
- Work release facilities serve as a proven bridge between life in prison and life in the community. Work release has better safety results than all other release options.
- Taxpayer Return on Investment
- Work release improves mental health.
- Work release is cost effective.
- Work release is sustainable.
- Work release increases community support.
- Work release reduces reoffending.
- Work release increases public safety.
- Work release reduces prison overcrowding.
- Work release is compassionate.
- Work release is responsible.
- Work release is accountable.
- Work release is transparent.
- Work release is inclusive.
- Work release is just.
- Work release is effective.

**Individuals must have:**
- or will have appropriate prison custody classification
- No active felony detainers, warrants or deportation holds
- Recommendation from the End of Sentence Review Committee
- Physical & mental ability to participate in the Work Release program
- Ability to secure and maintain employment and/or education or training.
- All victim safety concerns mitigated and

**Residents must submit to frequent test for substance abuse.
- Residents only leave the facility if they work, are conducting business, or on supervised family visits.
- Outings are always in the presence of a sponsor who has undergone a criminal background check and adjudged responsible for the participant's actions.
- Residents must continue therapy, parenting classes, anger

- [POPULATE WITH PROCESS USED TO INCLUDE STAKEHOLDERS AND THE PUBLIC]

Conditional Use Permitting

**Essential Public Facilities** according to Washington State Legislature

Essential public facilities include those facilities that are typically difficult to site, such as airports, state education facilities and state or regional transportation, regional transit authority facilities, state and local correctional facilities, solid waste handling facilities, and inpatient facilities including substance abuse facilities, mental health facilities, group homes, and secure community transition facilities.

**Conditional Use Permit (CUP)**

Conditional use refers to a land use requiring special review to ensure compatibility with existing, permitted uses in the same zone. A conditional use permit allows a property owner to develop property with special uses imposing conditions to help maintain a balance with the surrounding neighborhood. Typically, Essential Public Facilities require a Conditional Use Permit.
Conditional Use Permitting

The following is an example timeframe to acquire a CUP:

**Step 1: +/- 60 days**
- Pre-application: With property owner’s permission, a pre-application can be submitted anytime that you have the submittal materials ready. Turnaround for a pre-application is 3 to 4 weeks.
- A neighborhood meeting is required prior to formal land use submittal for the Conditional Use Permit (CUP). 4 to 5 weeks from the pre-application submission is optimal.

**Step 2: +/- 90 days**
- Review turnaround target for hearing examiner CUPs is 75-in-house days.
  - These are in-house timeframes and don’t take into account the time prior to submittal that it takes to prepare plans and reports as needed, and also don’t account for time that comments have been sent to the applicant to be addressed.
- Under State law, review team has 120 in-house days to process an application.

**Step 3: +/- 60 days**
- Building permits for commercial tenant improvements are typically 6 to 8 weeks.
- If civil construction plan review is needed for any reason (typically not for reoccupying a site but can be for example if a parking lot is being expanded, or utility extensions or frontage improvements are triggered), the review timeframes are 5 weeks for a first review, 3 weeks for a second review, 1 week for a third review, and then the schedule repeats if needed.
