Why is the recidivism data from 2013? while daily work-release population data from 2019? Is aforementioned data county specific? Can we see trends for recidivism/ work-release data across time? In regard to recidivism, what does “Return to prison” mean? Does this include misdemeanors? How is risk of reoffending calculated? Will selection of sites prioritize greatest county need, or will equal effort be distributed and whatever sites comes up first get developed? Will beds all be in one county? Are programs (education, employment, etc.) determined while resident is incarcerated or after they have been placed in a house/facility? When are individuals eligible for work-release? 6 months? 12 months? Will there be open forums in final selection process?</p>
