Introductions and Objective

Work Release Expansion Project

DOC Mission: To Improve Public Safety by Positively Changing Lives
DOC Vision: Working Together for safe Communities

• Work Release Expansion
  ◦ Work release facilities serve as a bridge between life in prison and life in the community. Incarcerated individuals who complete the work release program are more likely to be successful in maintaining employment, stable housing, and in paying legal financial obligations. Recent research conducted by the Washington State Institute for Public Policy indicates that work release programs have a positive cost/benefit impact; for every dollar spent, $3.82 is returned to the state.

Engaged with the City of Mountlake Terrace - Planning Department to confirm findings and request next steps

◦ Subject property it is zoned Light Industry/Office Park District (LI/OP). Mountlake Terrace Municipal Code (MTMC) Title 19 Zoning, Chapter 19.65 does not specifically list ‘correctional facility’ as a permitted or conditional use in the zone.

◦ MTMC Title 18, Chapter 18.15.020 identifies ‘correctional facilities’ as a ‘Type A essential public facility. MTMC 18.15.030 allows correctional facilities in the LI/OP zone subject to a conditional use permit application and review.

◦ Is this a fair analysis of the relevant Land Use and Zoning Codes? What is the official process and criteria for siting a DOC WR Facility in the LI/OP Zone?
