July 5, 2022

TO: Larch Corrections Center Staff

FROM: J.C. Miller Jr. Superintendent

SUBJECT: Larch Corrections Center COVID-19 Facility Wide Outbreak

On May 5, 2021, the Department announced an update to the COVID-19 protocols and shared the definition of a Facility Wide Outbreak. Facilities that experience multiple Limited Area Outbreaks are experiencing a Facility Wide Outbreak. A Limited Area Outbreak, is an outbreak, that is very limited to one area. Meaning only the impacted area would be on outbreak status.

Larch Corrections Center has had 5 confirmed cases of COVID-19 in the incarcerated population from multiple living units. As a result of these COVID-19 positive cases, Larch Corrections Center has started testing the entire population.

Following the Prisons Division Cluster and Outbreak Checklist due to the positive COVID-19 tests and the associated quarantined cases that go with them, we have reached a point in time in which we will have to take additional steps to limit the potential exposure of COVID-19 to the incarcerated population.

Beginning today, Larch Corrections Center will be in Restricted Movement status due to COVID-19. This change will impact the incarcerated population’s ability to attend regularly scheduled programs, call-outs, and services. Additional information will be sent regarding these changes.

As of June 30, 2022, all visits to include regular visits as well as extended family visits have been placed on hold, no DNR or CWC will be deployed until further notice. Starting next week all staff will be required to test twice a week. A schedule is being developed based on your work schedule.

These steps are meant to minimize the short and long-term impact that our response will have on our incarcerated population. As we move forward in the coming days you can expect to see cohorting in the dayrooms and shower/bathroom areas, serial testing of our incarcerated population, and an increased awareness to Personal Protective Equipment (PPE) protocols, cleaning, sanitizing, and disinfecting, and social distancing. It is our hope by taking these measures that we can cut down on the amount of potential exposures and reduce the amount of time it will take to get back to a new normal with our operations.

"Working Together for SAFER Communities"
I ask each and every one of you to be committed to following these standards so we can move past these restrictions as quickly as possible. By working together, I know that we can get past this difficult time and get to a place in which we can all have some relief from the restrictions that this pandemic has brought upon us all.

Thank you all for your cooperation and patience through this difficult time.
