WA DOC COVID-19 ACTIVE SCREENING QUESTIONNAIRE

This will be updated as the CDC and WA State Health Department’s information on COVID-19 continues to change.

Your health and well-being are of the upmost importance and we are taking measures to keep the facility/office a safe environment for employees as well as the individuals under our charge and the public. Therefore, anyone coming into the facility/office will be screened and part of our screening process will include taking their temperature and asking the following questions.

1. Within the last 14-days, have you had any of the following new symptoms that you cannot attribute to another health condition?
   - ☐ Cough
   - ☐ Sore throat
   - ☐ New loss of taste or smell
   - ☐ Shortness of breath or difficulty breathing
   - ☐ Muscle or body aches (not caused by specific activity such as physical exercise)
   - ☐ Fever or sense of having a fever (at or above 100.4°)
   - ☐ Nausea or vomiting
   - ☐ Diarrhea
   - ☐ Congestion

2. Within the last 14 days, have you had close contact, without the use of appropriate PPE, with someone who is currently sick with suspected or confirmed COVID-19?* (Note: Close contact is defined as within 6 feet for at least 10 consecutive minutes)

If the individual answers YES to any of the questions above OR has a temperature greater than or equal to 100.4°, they will be denied access into the facility/office unless determined otherwise by a designated DOC medical professional.

*Facilities identified as being at critical staffing levels in health services may have healthcare workers authorized by the HQ Emergency Operations Center to enter the facility under the following guidelines:

- As long as they remain asymptomatic;
- Self-monitor symptoms as outlined in the guidance; and
- Wear a surgical mask at entry and at all times while on facility grounds.
