TaTeasha Davis

A.  To the Table Case – Members had a full Board discussion of this ISRB case.

LT JUVBRD

- ROETCISOENDER, Lyle
- DOC #939471
- Purpose: Full Board Discussion
- Date: 7-11-2022
- List of Documents Reviewed
  - ISRB File
- An updated prosecutor recommendation was not received.

- Mr. Roetcisoender was seen for a release hearing on June 22, 2022, at the Monroe Correctional Complex – Special Offender Unit.

- Summary Discussion
  Mrs. Ramsdell-Gilkey presented the case to the full Board.

- Mr. Roetcisoender is being seen by the Board for his conviction of Kidnapping in the First Degree Count I in Kittitas County Cause 87-1-00124-4.

The crime involved Mr. Roetcisoender abducting a two-year-old female from her front yard. The victim’s five-year-old brother ran in the house to let his parents know what happened. A search ensued and the victim was found naked, unconscious and face down in a nearby creek. When apprehended he admitted to taking the victim and physically and sexually assaulting her. She survived.
Risk assessments tools show Mr. Roetcisoender to be a moderate risk for violent recidivism. The tool used to screen for cognitive impairment showed he achieved a score which indicates neurocognitive disorder.

Mr. Roetcisoender has incurred 100 infractions. However, he has done better in the past few years.

He struggles to interact with others and has not acquired the necessary coping skills.

Mr. Roetcisoender has completed Basic Skills and does participate in mental health groups on the unit.

Decision:
The panel recommends he be found not releasable.

- **Reasons:**
  - Though not convicted of a sexual offense, there were sexual elements to the offense and Mr. Roetcisoender has not yet participated in the Sex Offender Treatment and Assessment Program (SOTAP) to address his risks. He indicates a willingness to do so.
  - Has significant mental health problems that appear to be related to his crime of conviction and potential risk of re-offense. He is classified as an S3. He has resided in mental health units throughout most of his prison stay.
  - He experiences a great deal of anxiety regarding any possible move to a more open living unit. He will need a step-down process of sorts to assist him in making any changes to more independent living prior to release consideration.
  - Demonstrates no insight into offending behavior.
  - It is unlikely that conditions of release would sufficiently reduce the risk of re-offense if released at this time.

- **Recommendations:**
  - Mr. Roetcisoender should be referred to the SOTAP as soon as possible. He should remain serious infraction free and make every effort to tolerate more interaction with staff and inmates. He should engage more fully in mental health treatment by discussing his struggles with staff on working on interventions.

- **Next Action:**
  - Submit a petition in June of 2026.
