- Summary Discussion
  Ms. Davis presented this case.

Mr. Nordsven is under the jurisdiction of the Board in King County Cause 74659 for Kidnapping in the First Degree.

The crime involved Mr. Nordsven approaching an unknown five-year-old female who was walking home from school. He opened the passenger side door of his vehicle and spoke to the victim who got into his vehicle. A family
friend of the victim observed the incident, wrote down the license plate and called the police. Mr. Nordsven was found walking with the girl in a wooded area. When he saw police, he let go of the girl and ran. He was 18 years of age at the time, and he is currently 64 years of age.

Mr. Nordsven has paroled twice and been revoked and returned to prison twice.

In 2017 Mr. Nordsven was charged and convicted of Failing to Register as a Felony Kidnapping Offender while on parole. He was sentenced to serve 30 days by the court.

Mr. Nordsven’s sexual acting out began at an early age. At age 14 he became more aggressive and attacked a woman at a bus stop. He was charged with Delinquent Molesting. This case was later dismissed. At age 16 he was arrested for Delinquent Assault. He was a suspect in a sexual assault in 1975 and later that year was a police report was filed stating he sexually assaulted two unknown minor females. No charges were made. There are several other incidents of Mr. Nordsven approaching minor females where charges were never filed.

Mr. Nordsven’s overall risk to re-offend is high to moderate. However, his diagnosis of a terminal illness and rapid decline in health mitigate his risk.

Mr. Nordsven has had only one serious infraction during this current incarceration. He is considered a positive pro-social individual on the unit.

Mr. Nordsven completed Chemical Dependency since his last hearing.

Mr. Nordsven would like to release to his ex-wife with hospice care. Extraordinary Medical Placement (EMP) paperwork has been initiated.

- **Decision:**
  - The panel recommends Mr. Nordsven be found parolable.

- **Reasons:**
  - Mr. Nordsven has been recently diagnosed with a terminal illness and his rapid physical decompensation mitigates his risk to society. He will require Hospice care upon release.
  - He has reconnected with his ex-wife and has community support
  - He is deemed “positive and pro-social” on the unit
  - He completed substance abuse treatment
- **Recommendations:**
  - Mr. Nordsven should focus on finding appropriate hospice care.

- **Next Action:**
  - Release to consecutive CCJ Snohomish County Cause 17-1-00897-31 on November 13, 2022. Submit fully investigated Offender Release Plan (ORP) by completing the established ORP process, initiated no later than 60 days prior to consecutive earned release date (ERD). The final Release date will not be set on the consecutive non-Board cause until the ISRB receives and approves the ORP. Upon Board approval of the ORP, the Board will then set a release date and issue any Special Conditions imposed by the Board.

- **Vote:**
