Extended Family Visit Resource Guide for Families

The Department of Corrections has established an Extended Family Visit (EFV) Program in Prisons for eligible incarcerated individuals to support building sustainable relationships important to reentry and to provide an incentive for those serving long-term sentences to engage in positive behavioral choices.

Participation is a privilege that is held to the highest screening requirements to ensure the safety of incarcerated individuals and their loved ones, as well as the orderly operations of the facility.

Applying for Visits

Application Process

Family members start by gathering all required forms by visiting [Prison Visits | Washington State Department of Corrections](#) under Extended Family Visits (EFV). Your next step is to gather all the required documents that are applicable to your request. Once you have all of the necessary documents, your application (DOC 21-415 extended Family Visit Application/Acknowledgment) needs to be submitted through the electronic application in the blue box under “Requirements for Extended Family Visiting (EFV).”

Required documentation must be issued by the appropriate regulatory agency (e.g., Department of Health, court issued), showing direct lineage through birth, marriage/state registered domestic partnership, or adoption.

Required documents may include:

- Birth certificate(s)
 - If “none listed” is on a birth certificate for a minor applicant, documentation must be submitted that shows proof of parentage for that parent (e.g., paternity documentation).
- Color copy of Government issued photo identification (e.g., passport, driver license or state ID card)
- Marriage license(s)/state registered domestic partnership certificate(s)
- Divorce decree(s)
- Death certificate(s)
- Adoption papers
- Other necessary documentation as identified by the Headquarters Visit Unit

Both parents listed on the birth certificate must provide written, notarized consent on DOC 20-441 Parent/Guardian Consent for Minor Visit and/or Escort.

If a parent has lost parental rights, court documents must be provided instead of the form.

Once the forms are filled out and required documents gathered, they may be submitted utilizing the electronic application at <https://doc.wa.gov/corrections/incarceration/visiting/prison-visits.htm#efv>

Once you submit your packet, the Headquarters EFV Unit reviews your packet to ensure all relevant information and documents are present. If not, we will communicate with you to submit what is missing. If an email is on file, a response will be sent via email.

Facility Review

When the packet is complete, it is sent to the facility case manager who sends it to Health Services for their review and recommendations. The case manager begins their review normally at the same time as Health Services. That way, the Facility Risk Management Team (FRMT) can convene to discuss the request with your loved one as soon possible.

Once the packet goes through the FRMT process and the Superintendent/designee makes their decision, the packet is then returned to the EFV Visit Unit.

EFV Review Committee

When the packet comes back to the EFV Visit Unit, some cases are required to go through an additional screening process called the EFV Review Committee. Crimes that trigger an automatic review are aligned with the following sex offenses and serious violent crimes list:

The EFV Review Committee consists of the Statewide Visit Manager, Director of Correctional Services, facility leadership, Deputy Assistant Secretary of Men's or Women's prisons, Sex Offender Treatment, Victim Services, and other committee members as appropriate for each case.

Once a decision is made, the HQ EFV Unit will send a kiosk message to your incarcerated loved one and a letter to family members. It is important to note that we will include the disqualifying information in the notification of the identified person (the one with the disqualifying criteria) and direct the other party to contact them for more information.

Appeals

If you receive a denial and believe it is in error, you as the family member or your loved one may submit an appeal to other DOC Correspondence Unit
doccorrespondenceunit@DOC1.WA.GOV.

This information will be in your notification. Please make sure you include any new information that you want considered for review by the committee, rather than just sending an email that says, "I want to appeal the decision." If the denial is due to a history of domestic violence, police reports may be submitted with your appeal for consideration.

Your appeal will be reviewed and a letter of notification will be sent to the appealing party. Appeals take approximately 30-45 *business* days and are final. Family members may reapply one year from the date of the final appeal denial.

We're Approved! Now what?

Each facility handles the scheduling of EFVs and your loved one starts the process by requesting available dates.

If during your visit you find any of these items missing, please let the facility staff know. You may also request items for the units by working with your Local Family Council representatives.

When you arrive at the facility

Please make sure you review the facility web site for check-in directions and remember you and additional family members must all follow visitor dress standards identified for visiting. Once inside the EFV unit, you'll be able to change and relax.

You can expect to go through standard search procedures when entering and leaving the facility, consistent with DOC 420.340 Searching and Detaining Facility Visitors. You do have the right to refuse the searches, but refusal will result in denied admittance to the facility and may jeopardize future visiting privileges.

Just so you are aware, your loved one will be searched entering and leaving the EFV unit, consistent with DOC 420.310 Searches of Offenders.

Visitors are allowed to bring only items identified in Extended Family Visit Allowable Items available in this document.

An ice chest may be used to transport cold products from your car to the facilities x-ray machines (where available) for staff to inspect and screen all food items. Staff will notify you of any items that must be transferred to plastic bags/containers that you brought with you for this scenario. Remember, liquid will not be transferred into plastic bags.

An important reminder when it comes to clothing: clothing brought in is only for the family. No clothing can be brought in for your loved one as they must remain in state-issue clothing during your visit. This is for two reasons; one, because street clothing is considered escape paraphernalia and two, if we must remove them quickly back into the facility because of an emergency and escort you out safely. Thank you for understanding.

What Your Loved One May Bring

Each of the following items may be brought in as authorized per number of days spent in the unit, not to include the set they wear in.

- T-shirts
- Sports Bra/fitted Sports Bra/Binder
- Underwear/Boxers
- Pants
- Shirts, button-up
- Socks

The following items are allowed as a single set:

- Shower Shoes
- Shoes
- Coat
- Hat
- Sweatshirts
- Sweatpants
- Shorts

These additional items are authorized to bring in as needed:

- Hygiene items for menstruating persons (e.g., sanitary napkins, tampons)
- Incontinence supplies
- Authorized durable medical equipment (e.g., walker, cane, CPAP, etc.)
- Contacts and cleaning solution/glasses
- Dentures and denture adhesive

A hygiene bag with soap, shampoo, toothpaste, and toothbrush is provided upon request.

Visitor Medications & Durable Medical Equipment

Each facility has established a process for visitor medications that fits their operations. Family members are required to document any newly prescribed and non-prescription/over-the-counter medication on DOC 16-102 Visitor Medication/Durable Medical Equipment Questionnaire and send the form to the facility prior to the visit.

- Family members may bring only the prescribed and/or non-prescription/over-the-counter medication to last the duration of the visit.
- Prescription medication will only be allowed if current and in the original container purchased from and labeled by a licensed pharmacy.
- Non-prescription/over-the-counter medications must be in original container.
- Prescription drugs are for visitor use only. Family members may not bring in prescription drugs for anyone else.
- Notify staff prior to your visit if there is a need for a raised toilet seat and/or shower chair.
- Glucometer or other medical applications that are used with cellular phones will not be available to family members since cell phones are not authorized in the EFV units.

Visitors may utilize a standalone electronic glucose reader. If you do not have a reader other than a cell phone, please work with your doctor to accommodate your needs by a method that does not include the use of your cell phone.

- Durable medical equipment, such as walkers, CPAP/Bi-PAP machines, or other necessary items must be listed on the form for review to ease your check-in experience.
- Prescription medication that requires refrigeration will be managed per the local facility process with assurance of refrigeration.

Please note: If your loved one is prescribed medications, a health services staff will arrive at stated times with correctional personnel to provide those medications.

Checking In to the EFV Unit – Orientation for Families New to the Unit or Process Only

Once the screening and searches are completed, the staff will escort you with your ice chest to the assigned EFV Unit where they will perform an orientation for families new to the unit or process. The orientation will include:

- Check-in and -out procedures
- Review of Allowable Items
- Unit walkthrough & appliance use
- Noise concerns
- Supervision of children
- Garbage & sanitation expectations
- Counts and wellness checks
- Formal/informal counts
 - Employees must visually and verbally communicate with all family members and your loved one at least once every 8 hours.
- EFV Medication procedure
- Emergency procedures
- Other facility specific information

Once the orientation is completed, your loved one will be brought in to start your visit. You may contact staff at any time if there is a problem.

Donations

Families may request to provide new, factory sealed CDs, DVDs, and computer games in advance for use at your upcoming visit. The item will be searched and held for your visit and then circulated for others to use after the completion of your visit. Donations will follow DOC 210.060 Donations, and the donated CDs, DVDs must be rated Early Childhood, Everyone, G, Everyone 10+, Teen, PG, PG-13, or equivalent. Unrated (i.e., "NR") items will not be allowed.

Family Planning and Prevention of Sexually Transmitted Infections

Family planning information is available through community agencies or upon request from facility Health Services at the facility where your loved one is assigned.

Spouses/state registered domestic partners will be responsible for providing any additional condoms/barrier protection and/or alternative birth control (e.g., birth control pills) as noted on the EFV Allowable Items section of this document.

Service Animals

Service animals that meet the requirements of the Americans with Disabilities Act (ADA) may be allowed to attend the visit with their designated escort. The following link provides you the information regarding service animals: <https://www.ada.gov/resources/service-animals-2010-requirements/>. Please understand that the service animal will not be allowed when a participating individual has a documented history of animal abuse or mistreatment.

You must accompany and supervise your service animal during the entire visit, and remember the following expectations:

- Always maintain control of the animal,
- Ensure the animal does not cause damage to any property,
- Understand you will be responsible for any damages caused by the animal
- Ensure the animal is leashed when outside the EFV unit, unless the device interferes with the service animal's safe, effective performance of tasks.
- Clean up waste (prior to entering the EFV or during orientation, please ask the staff to provide the materials and instructions on waste management).
- Visitors may be asked to remove the animal from the premises if the animal does not conform to ADA service animal requirements. If that occurs, the current EFV will be ended. Visitors may schedule their next EFV to occur no sooner than 30 days after the end of the visit.

Summary

The Department hopes you enjoy your visit with your loved one and encourages you to review the following reference section for additional information. Please let us know how we can improve your visits!

REFERENCE SECTION

IMPORTANT NOTE: RCW 72.09.015 defines "immediate family" as: children of the incarcerated individual, stepchildren, grandchildren, great-grandchildren, parents, stepparents, grandparents, great-grandparents, siblings, aunts, uncles, and a person legally married to or in a state registered domestic partnership. This includes an individual who was adopted as a child or an adult but does not include an individual adopted by another individual.

Domestic Violence Screenings

The Department uses a combination of information to identify domestic violence concerns. This includes but is not limited to:

- History of arrests for domestic violence flagged cases.

- Convictions of domestic violence flagged cases or cases where domestic violence is described by police reports, pre-sentence investigations, probable cause statements and other crime descriptions.
- Court filings may not be counted unless additional factors are present as noted below.
- Convictions where there is no domestic violence flag, but crime details reflect evidence of domestic violence victims. This may occur when an individual takes a plea to a lesser offense.
- Protection orders, Anti-Harassment orders, No-contact orders on the side of either the visitor or the incarcerated individual. The screening reviews “who” the identified protected person is, the protected person’s relationship to the named defendant, and any additional information revealed through records search.

Additional considerations:

- Victims of domestic violence convictions are not eligible for EFVs.
- Visitors or incarcerated individuals deemed to have a domestic violence indicator against a “like” or similar victim (e.g., individuals who assaulted a spouse/state registered domestic partner, intimate partner, parent, child, or other family member) may not be eligible for EFV privileges.
- Infraction records or visit room behavior that reflect violent or aggressive behaviors may impact eligibility.

Factors considered in addition to domestic violence:

- Internal investigation or confidential information received that substantiates a threat to safety and/or security if privileges are granted (i.e., escape concerns, drug introduction, etc.).
- Pending infractions that will disqualify individuals if found guilty (application may be held pending outcome of hearing but will not be held through appeal process).

The Department also applies applicable definitions as provided in RCW 71.105.010.
