Support Community Partners

Program Overview

The Reentry Division partners with community organizations to provide reentry programs and services that help individuals successfully transition back into their communities. Through partnerships, the department funds programs that offer a range of support, including:

- ✚ **Essential Resources and Services:** Clothing, hygiene products, bedding, access to transportation, food assistance, and access to digital resources (including cell phones, laptops, and internet connectivity).
- ✚ **Community and Peer Support:** Peer mentoring programs, support groups, family reunification, Case management, life and social skills development, digital and financial literacy training, and federal and state identification/benefit assistance.
- ✚ **Reentry Planning and Coordination:** Reentry Planning Workshops that assist in the development of [Individual Reentry Plans](#) and align with [RCW 72.09.270](#) and post-release support.

Community partnerships provide a vital support network that helps individuals reintegrate into society after incarceration. By offering a wide range of services and resources, these partnerships can significantly reduce recidivism rates and improve the overall well-being of returning citizens.
