Corrections’ COVID-19 Bulletin
February 2, 2022
Bulletin 117

Current Status
The Washington State Department of Corrections’ (DOC) Prisons and Work Release facilities are currently mirroring the current increase of COVID-19 cases across the state with 18 currently on outbreak status. DOC’s priority is the health and safety of staff and everyone in its care and custody and has taken the following measures to mitigate the transmission of COVID-19 and continue maintaining safe and humane correctional environments. The department has also taken a number of steps to address staffing shortages. You can read about those steps, here.

DOC has been using the Incarcerated Individual Betterment Fund (IIBF) to do a variety of things for incarcerated individuals to help the time pass more smoothly. Additionally, a message was sent to incarcerated individuals and family members on January 28, 2022, that invites ongoing input from families and incarcerated individuals the opportunity to offer up suggestions for future expenditures from the IIBF.

Prison facilities are taking steps to ensure that incarcerated individuals receive regular communications from each facility regarding status changes of the facility and COVID-19. Read more, here.

Each prison and work release facility on outbreak status sends out a weekly status update message, that can be viewed on the department’s Significant Events Timeline (SET). You can search for information about a specific facility by visiting the SET, hitting ctrl+f, and typing in the acronym of the facility you are interested in.

Frequently Asked Questions
Each week, DOC will be responding to top questions received by the Office of the Corrections Ombuds. To learn more about this, and to see the full list of this week’s questions – visit the webpage, here.

Prison Facilities
Starting January 24, 2022, DOC will be including active cases from the last 14 days rather than confirmed cases in the last 30 days. This is in an effort to provide the most current, relevant information possible in the bulletin. You can still review confirmed cases in the last 30 days, and more data, on our COVID-19 data webpage, available here.
