

# Corrections' COVID-19 Bulletin

February 4, 2022  
Bulletin 118

## Current Status

The Washington State Department of Corrections' (DOC) Prisons and Work Release facilities are currently mirroring the current increase of COVID-19 cases across the state with 16 currently on outbreak status. DOC's priority is the health and safety of staff and everyone in its care and custody and has taken the following measures to mitigate the transmission of COVID-19 and continue maintaining safe and humane correctional environments. The department has also taken a number of steps to address staffing shortages. You can read about those steps, [here](#).

DOC has been using the Incarcerated Individual Betterment Fund (IIBF) to do a variety of things for incarcerated individuals to help the time pass more smoothly. Additionally, a [message was sent to incarcerated individuals and family members](#) on January 28, 2022, that invites ongoing input from families and incarcerated individuals the opportunity to offer up suggestions for future expenditures from the IIBF.

Visitation at prisons and work release facilities continues to be suspended, with a re-evaluation date of March 3, or sooner. [Read more here](#).

Each prison and work release facility on outbreak status sends out a weekly status update message, that can be viewed on the department's [Significant Events Timeline \(SET\)](#). You can search for information about a specific facility by visiting the SET, hitting ctrl+f, and typing in the acronym of the facility you are interested in.
