

Corrections' COVID-19 Bulletin

April 14, 2022
Bulletin 145

Current Status

The Washington State Department of Corrections (DOC) currently has 3 facilities on outbreak status. There were 20 prison and work release facilities on outbreak status on January 24, 2022. DOC's priority is the health and safety of staff and everyone in its care and custody.

DOC facilities and living units that are not on outbreak status are finding ways to safely resume religious and educational programming, visitation, and other activities that are important for an individual's successful reentry to the community. When a facility has a limited area outbreak in a specific living unit, only those living units are impacted, while the remainder of the facility is able to continue normal operations.

DOC [announced an update to prison and work release visitation status](#) on February 22, 2022.

[Click here to read the most recent Safe Start updates.](#)

When prison and work release facilities experience a COVID-19 outbreak they send out a weekly status update message that can be viewed on the department's [Significant Events Timeline \(SET\)](#). You can search for information about a specific facility by visiting the SET, hitting ctrl+f, and typing in the acronym of the facility you are interested in.

Starting April 4, 2022, the COVID bulletin moved from three times weekly, to two times weekly on Tuesdays and Thursdays, not to include holidays.

Numbers at a Glance

Average Daily Population

- **12,308** March 2022 Total [Average Daily Population](#) of Incarcerated Individuals for Prison and Work Release Facilities

Vaccination Status

- Incarcerated Individuals vaccinated (at least one dose) **10,954**

Frequently Asked Questions

To review DOC's COVID-19 Frequently Asked Questions – [visit the webpage, here.](#)

Prison Facilities

Starting January 24, 2022, DOC will be including active cases from the last 14 days rather than confirmed cases in the last 30 days. This is in an effort to provide the most current, relevant information possible in the bulletin. You can still review confirmed cases in the last 30 days, and more data, on our [COVID-19 data webpage, available here.](#)
