Current Status
The Washington State Department of Corrections (DOC) currently has 2 prison and work release facilities on facility wide outbreak status and 3 facilities on limited area outbreak status.

DOC facilities and living units that are not on outbreak status are finding ways to safely participate in religious and educational programming, visitation, and other activities that are important for an individual’s successful reentry to the community. When a facility has a limited area outbreak in a specific living unit, only those living units are impacted, while the remainder of the facility is able to continue normal operations.

With COVID-19 cases increasing across the state, the COVID-19 bulletin will revert to a once weekly dissemination each Wednesday, except for holidays.

DOC announced an update to prison and work release visitation status on February 22, 2022.

Vaccination Status
- Incarcerated Individuals vaccinated (at least one dose): 10,910

Frequently Asked Questions
To review DOC’s COVID-19 Frequently Asked Questions – visit the webpage, here.

Prison Facilities
Starting January 24, 2022, DOC will be including active cases from the last 14 days rather than confirmed cases in the last 30 days. This is in an effort to provide the most current, relevant information possible in the bulletin. You can still review confirmed cases in the last 30 days, and more data, on our COVID-19 data webpage, available here.
