Paige Perkinson, HQ

Lorne Spooner, Assoc. Spt./Programs

Katrina Henry, Health Care Manager

Carol Foss, Family Representative

Janet Floyd, Family Representative

Purpose – to get information related to the COVID-19 outbreak out to the families to help them understand the steps being taken by DOC to keep the Incarcerated Individuals safe and healthy. We are doing this on a weekly basis.

Sanitation – We continue to clean. We are using germicidal and today implemented a bleach mixture as we needed to order more germicide. We have hired more porters and increased cleaning areas of the facility to include graveyard cleaners. We have hand sanitizer to place in areas where soap and water might not be readily available (ex: yard). We have issued free soap to any Incarcerated individual that is in need and have more on hand for when they need more.

Testing – We are still testing for COVID-19 and, currently no positive results for CBCC. We are now receiving the test results quicker than before. Currently we have 1 person in isolation and 2 in quarantine as precautionary.

Social Distancing – We are still working on social distancing for everyone. Staff and Incarcerated Individuals are reminded to remain 6 feet from others.

Screenings – Staff are still being screened on each shift. If any incarcerated Individuals report or show signs of symptoms they are screened by medical and if deemed symptomatic they are isolated.

Question from family members:

Question – Does CBCC have a plan for dealing with this pandemic and is it available to family members?

Answer – yes, we have a plan as does all facilities within DOC. We will have to find out if the plan is available to family members.

If someone wants a copy of the plan they would have to go through the Public Disclosure Unit at HQ and follow their process to inquire about the plan.

Meeting adjourned at 12:20 p.m.

Next meeting scheduled for 4-10-2020 @ Noon
