Pre-Submitted Questions
No pre-submitted questions

Additional Questions
Question 1
With continued COVID, what activities are being utilized to keep up morale of our loved ones?
Answer
We have added extra yard time which has been restricted due to the air quality but will begin as soon as it is possible to be outside again. More games have been added in the yard. There are education classes, religious activities and cultural meetings happening as long as we can social distance. We had an art contest which has been completed. We are going to do another one. The population has access to crossword puzzles, suduko puzzles, word finds etc. More video visits have been added and hopefully are working after Jpay was at the facility and hopefully fixed the problems.

Question 2
Are our loved ones getting books to read knowing the library has not been open?
Answer
We have had several boxes of books sent to us from the state library on 2 separate occasions and distributing them to all units.

Comments/Closing
- One of the family reps. Wanted to thank everyone for showing up to work and doing a great job.
- Meeting adjourned at 1245
- Next meeting 9/23/2020 @ 1230
