

COVID-19 Incarcerated Population Reduction Efforts | Rapid Reentry

Rapid Reentry is a response to the COVID-19 pandemic within the incarcerated population. RCW 9.94A allows partial confinement options as a method to reentry. The Department of Corrections utilized a modified version, by proclamation and policy decision, of graduated reentry. Individuals will be transferred to an established residence and placed on electronic monitoring to complete their sentence of confinement. These individuals will be monitored by correctional specialists in the community. Individuals are subject to their conditions of supervision and, if they violate those conditions, could be returned to confinement. The list of individuals is subject to change based on an ongoing review.

Transferred				
Name	DOC Number	Most Serious Crime	County of Origin	Date Transferred to the Community
