Programming Security Chair

Correctional Industries' Programming Security Chair affords the opportunity to provide therapeutic programming and education to high security incarcerated individuals. It is designed with officer safety and institutional security in mind. The individual is able to sit and work easily under full restraint. Rotation of the desk allows the officer to maintain eye contact with the individual. Five indexed locking positions allow writing surface to be optimally positioned accommodating a wide range of users.

For more information about these chairs, contact your account executive.
